Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

Examiner acknowledges response by applicant's representative received 8/5/05.

Examiner further acknowledges the cancellation of claims 2 and 8.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

Claims 1, & 3-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. It is unclear what applicant means by "in accordance to table 1 or table 2". If applicant claims these tables, they should be placed in their entirety in the claims.

Regarding claims 1 and 7, if the rules cover all "possible combinations" how can applicant then limit the rules in lines 7-9? Would a "possible" rule be – you win if greater than "21"? It is not clear what applicant intended by "possible combinations"

Applicant appears to claim an infinite range and then follows with a narrow range.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 & 3-7, as best understood, are rejected under 35 U.S.C. 102(b) as being anticipated by Webb (6,012,719).

Webb discloses a Method For playing Blackjack With A Three card Poker Wager (21+3).

Regarding Claims 1 & 7

Webb teaches player is dealt two cards and the dealer is dealt single initial card (see abstract & col. 2, lines 20-25), allowing the player to place a side bet; paying or collecting the side bet in accordance with a pre-established set of rules, which cover all possible combinations of the three initial cards. Webb further teaches in col. 3, lines 23-30, an embodiment that allows a poker wager to be the required wager making the blackjack wager additional (side bet) wager. The claim is not limited to that of lines

Art Unit: 3711

7-9, lines 5 and 6 appear to control and cover all possible combinations. Webb clearly teaches possible combinations.

Regarding claims 3-6

Webb teaches that his game may be played with multiple decks (see col. 2, lines 40-43). Webb further teaches collecting the side bet in accordance with a pre-established set of rules, which cover all possible combinations of the three initial cards. In the case of the preferred embodiment where the side wager is a poker wager, pre-established rules of the conventional game of poker would include same suit, same card number and sequential cards.

Response to Arguments

Applicant's arguments with respect to the claims have been considered but are moot in view of the above rejection.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure and are cited to show the state of art with respect to features of the claimed invention.
